

# 4 METHODS OF ENGAGEMENT

Communicating the concept and vision for your CEPN will require a lot of legwork and face-to-face time to gain active engagement from your Stakeholders

Along with 1-2-1 meetings and creating a website, try employing the 4 Methods of Engagement below:

1

Attend specific types of local forums or meetings that already bring others together

3

Invite stakeholders to your CEPN meetings

2

Establish a forum or learning event to bring others together where they didn't already exist

4

Make visits to your General Practices in your locality
